

FGU

FRENCH-GEORGIAN UNIVERSITY

MEET THE FUTURE

FGU's mission

Our ambition is to become a regional platform of education and culture which will welcome and unite young people from Georgia and the whole region.

French-Georgian University (FGU) creates a coordinated set of double French-Georgian degrees in Georgia in strategic sectors for Georgia's economy such as tourism, the agricultural sector, new information technologies or biotechnologies.

Why FGU?

- ▶ FGU offers an opportunity to obtain a French diploma at an affordable cost, while studying in Georgia.
- ▶ The courses are given by French and Georgian professors.
- ▶ After graduating from FGU, each student will receive two degrees: one from a Georgian university and another from a French university.
- ▶ FGU focuses on the key sectors of Georgian economy in order to train professionals who will have advanced intercultural skills which is in high demand in the labor market.
- ▶ French-Georgian University also offers programs facilitating mobility to France and the possibility of doing a professional internship with partner companies in Georgia and abroad.

FGU programs

Master in Tourism and Cultural Heritage

FRENCH
GEORGIAN
UNIVERSITY

— université
— Lumière
— Lyon 2

- ▶ This program in Tourism focused on the valorization of cultural heritage is intended to young undergraduates who wish to develop the sector of Georgian tourism in bringing to the foreign tourists the rich material and immaterial cultural heritage of Georgia.
- ▶ The program is taught in French and Georgian, and aims to prepare bilingual professionals who are able to work independently in a multicultural environment.
- ▶ After the successful completion of the studies, students will obtain 2 degrees: one Master's Degree from the TSU and one Master's Degree from the University of Lyon 2.

FGU programs

Bachelor in Food Technology

FRENCH
GEORGIAN
UNIVERSITY

UNIVERSITÉ DE
RENNES 1

- ▶ This program in food technology focuses on technological aspects of food development and production processes, food quality, health and safety, and logistics. Special attention is given to dairy process technology.
- ▶ The rapid expansion of dairy industry in Georgia has created huge demand for skilled professionals in this field. Therefore, candidates pursuing a course in dairy technology have a lot of scope and career opportunities in this field.
- ▶ After the successful completion of the studies, students will obtain 2 degrees: one Bachelor Degree from the GTU and one Bachelor Degree from the University of Rennes 1.

FGU conferences

FGU organizes scientific, educational and cultural events in partnership with French and Georgian institutions. The main aim of FGU conferences is to deepen French-Georgian relations and contribute to the intellectual life of Georgia by sharing ideas.

FGU International Mobility

FGU PhD SCHOLARSHIPS

French-Georgian University in collaboration with the French Institute of Georgia offers three-month scholarships to PhD students of Georgian nationality who are attached to a Georgian higher education and research establishment.

This scholarship is intended to finance a research period in France as part of a host team from a French higher education and research establishment.

ERASMUS+ SCHOLARSHIPS

In the framework of FGU project, an ERASMUS + Consortium has been created and coordinated by Rennes 1. 720 480 € was granted to this consortium by the Erasmus + Agency for the years 2019-2022.

Students enrolled in one of the partner universities can participate in Erasmus + International Mobility between France and Georgia.

You can find the list of FGU partner universities [here](#).
